

WEEK FOUR

INTRO

By now, you have learned so much about how the Bible uses creative language to paint the picture of God as light and the world as dark. You've got a really good understanding of it. This week, the last in this book, will have you adjust your focus and begin to look at one final angle of the darkness and the light.

This week you'll focus on what it looks like for YOU to be the light.

God's goodness and love and mercy shine like a light in the dark world. The crazy thing is that God sees us as an extension of His light. He wants our lives to shine in the same way. This week will be your chance to be challenged to discover exactly what this looks like for you.

It's your last week, don't let up. God has a lot more to show you.

Let's get started.
